**GREAT WOLF LODGE WOULD LIKE TO RECOGNIZE THE PARTNERSHIP AND COLLABORATION WITH IBCCES IN BOTH CREATING THIS SENSORY GUIDE AND IN PROVIDING GUIDANCE AND TRAINING FOR OUR PACK MEMBERS.**

IBCCES has been the leader in cognitive disorder training and certification for healthcare, education, and corporate professionals around the globe for over 20 years. IBCCES is the only credentialing board that provides travel and entertainment organizations with training and certification programs from experts, autistic self-advocates, and other resources, as well as long-term support to help them accommodate and assist autistic or sensory-sensitive visitors and their families. IBCCES created programs specifically for hospitality and recreational organizations in order to train staff and help develop other accommodations for this growing but underserved part of the community.

*The assessors believe the information contained within this assessment report to be correct at the time of printing. The assessors do not accept responsibility for any consequences arising from the use of the information herein. The report is based on matters which were observed or came to the attention of the assessors during the day of the assessment and should not be relied upon as an exhaustive record of all possible risks or hazards that may exist or potential improvements that can be made.*

## GREAT WOLF LODGE'S MISSION IS TO BRING JOY TO FAMILIES.

### OVERVIEW

Great Wolf Lodge's mission is to bring joy to families. As the next step in ensuring this goal, we have partnered with the International Board of Credentialing and Continuing Education Standards (IBCCES) in an effort to ensure our lodge is a welcoming and joyous getaway for all of our visitors, including groups who may have a neurodivergent member. This partnership includes training and resources for our Pack Members in their interactions with neurodivergent and sensory-sensitive guests, as well as this Sensory Guide to hopefully allow our guests to be better prepared for their visit.

We understand how important it can be for families to have a thorough

understanding of a facility and its potential for sensory triggers. Our website ([www.greatwolf.com](http://www.greatwolf.com)) is an excellent resource for understanding the various features, attractions, retail outlets, and dining options at each of our lodges. As part of our partnership, IBCCES evaluated our slides, pools, and attractions to provide their independent and expert opinions on how each rates across sensory inputs, to give our guests a better level of information prior to visiting. Our sincere hope is that this Sensory Guide offers our guests some comfort and a sense of control as they prepare to experience a fun-filled visit to Great Wolf Lodge.

## WRISTBANDS

A unique aspect of being an overnight guest at Great Wolf Lodge is the ability to leave your wallet and forms of payment secured in your guestroom while you enjoy our outlets and attractions. Upon check-in, our adult guests are outfitted with a wristband that includes a programmed RFID chip that functions as your guestroom key, as well as your ticket to enter the indoor water park. Also, it can be linked to your payment account, allowing you to charge purchases by simply scanning your wristband.

Children are also issued wristbands but without the RFID chip unless otherwise requested. If you have concerns that your child is likely to wander from your group

during your stay and find themselves separated, consider requesting an RFID wristband for your child. If a Pack Member recognizes a child is separated from their group, an RFID wristband will allow us to identify the reservation of their party and greatly enhance our ability to quickly reunite the group.

Additionally, you may wish to identify a member of your group as neurodivergent, so that our Pack Members are aware to take special considerations when interacting with that guest. We can offer a special multi-colored wristband to signal to our Pack Members that the wearer is neurodivergent. If interested, please request this wristband during check-in.

WATER PARK

ATTRACTIONS

## QUEUES

We offer many attractions at Great Wolf Lodge across both the water park and our “dry play” Adventure Park. Each of our lodges are listed at the beginning of this Sensory Guide along with their respective attractions, so you can quickly see which are available at the lodge you plan to visit. As with any entertainment center, queues may form for certain attractions and there could be a slight wait time to experience it. This is more likely at our larger water-slides that are accessed via a tower staircase in the water park.

We understand that waiting in line can be a challenge for many individuals, but for various reasons, we do not offer any form of queue skipping service. However, many

of our attractions are often available without any kind of queue, such as our pools and various water park play structures. In addition, our arcades and lobby entertainment are also likely to be without a line. If the wait time associated with a specific attraction is particularly challenging to a member of your group, we encourage you to take advantage of these no-queue options or consider timing your water park experience during less crowded times, such as the beginning or ending of operating hours. Another consideration, if queuing is a concern, is to schedule your visit midweek during a non-school break period, when the lodge is usually less busy.

# GREAT WOLF LODGE SENSORY GUIDE

OVERVIEW

AMENITIES

WATER PARK

ATTRACTIONS

## QUIET AREAS

Each Lodge is unique in its layout, but each has public areas that are generally quieter than the more popular attraction areas. We encourage you to familiarize yourself with the layout upon arrival, to determine if there are sections that would allow you to quickly find a quieter area if the need arises. Also, feel free to ask any of our Pack Members if they can recommend such an area. Of course, as a hotel guest, you'll have your guestroom to take a break from the excitement of our water park and attractions. Within the water park, cabanas are available for rent, to provide a reserved area for your group and a sense of semi-seclusion from the surrounding environment.

## ADA ACCESSIBILITY

Each Great Wolf Lodge property is prepared to assist guests with specific physical accessibility requirements. Our facilities permit service animals (including inside the water park, except in or near pools); we offer ADA compliant guestrooms with features highlighted in the guestroom descriptions portion of our website; and we include several accessible hotel features such as reserved accessible parking, accessibility elements within our food and beverage outlets, and equipment for those with audibility needs.

Additional details can be found online at [www.greatwolf.com/accessibility](http://www.greatwolf.com/accessibility). To the extent you have specific requirements or inquiries not addressed above or online, please either reach out to us by email ([accessibility@greatwolf.com](mailto:accessibility@greatwolf.com)) or contact us by phone (800-905-9653) and mention you'd like to speak to someone regarding the accessibility features available at a Great Wolf Lodge.

OVERVIEW

AMENITIES

WATER PARK

ATTRACTIONS

## DINING/FOOD ALLERGIES

Great Wolf Lodge offers multiple food and beverage outlets to satisfy your group throughout your stay, while never having to leave the comforts of the lodge. Please check our website for the specific outlets found in the lodge at which you're staying—each of our outlet menus are conveniently located online to allow you to plan ahead for your group's preferences.

Traveling with food allergies or while on a gluten-free diet can be quite stressful, and our chefs at Great Wolf Lodge are trained and knowledgeable about most allergies. With advanced notice, our culinary team can often provide personalized options to guests, no matter their needs. To coordinate with the lodge's culinary

team prior to your stay, visit the "Dining" tab on the website page for the location you plan to visit. There, you'll find an email address for that lodge's executive chef to discuss your specific food allergies.

If unable to coordinate in advance of your visit, please talk to our front desk or restaurant Pack Members upon arrival at the lodge. The chef or sous chef will come out to speak to you directly about what foods may trigger an allergic reaction, and help you navigate the available menus.

**RIDE NAME:**  
**MagiQuest**

**ACTIVITY SUMMARY:**

Explore the lodge and take part in the adventure of a lifetime! MagiQuest turns Great Wolf Lodge into a live-action videogame where you're the star. You'll choose a special magic wand, top it with extra powers, and set off on a quest to help the Guardians protect the Realm Portals, in order to earn the title of Master Magi. Play for a few minutes or all day. Be sure to take your wand home—you can continue your adventure on your next trip to Great Wolf Lodge.
